Dear Parents/Carers

County Lines and Online Safety

At Helston Community College, we have an extensive set of procedures and support strategies for the safeguarding of our students. However, we are always looking to develop this further. In order to reach the wider community, we have asked local feeder primary schools to share this information on our behalf.

As part of our development this half term, we will be focusing on County Lines and Online Safety, in hope of raising awareness of the associated risks.

We have attached some information which we think may be of use to parents/carers in supporting young people in the Helston area.

We continue to encourage members of the community to report any concerns they may have about our students to Helston Community College's Safeguarding Team [contact details are provided below].
