Music – 16/06/2026	29
Science and Triple Science – 22/06/2026 (biology), 24/06/2026 (chemistry), 26/06/2026 (physics)	30
Spanish: 17/06/2026 (reading), 22/06/2026 (writing)	32
Suggested timings and good habits	33

## Why revise?

### 1. **Boost Your Memory and Beat Forgetting**

Imagine spending hours in class learning something, only to forget it a few days later. This happens to everyone, and it's called the "forgetting curve," a concept discovered by psychologist Ebbinghaus. Without revision, your brain naturally starts to forget information over time. But when you review regularly, you strengthen your memory and make sure all that hard work doesn't go to waste. Revising for your mocks is the key to remembering what you've learned for the long term, setting you up for success in both the mocks and the real exams.

### 2. **Make Learning New Information Easier**

Revising the things you've already learned gives your brain the foundation it needs to absorb new information faster and with less stress. When you walk into class already confident in the basics, you can focus on understanding new topics, rather than trying to catch up. This makes your entire learning process smoother and easier. Think of revision as building a strong base—without it, everything else gets harder!

### 3. **Gain Confidence and Control**

How often do nerves or panic get in the way of doing your best? By revising for your mocks, you're not only preparing for the content but also boosting your confidence. When you know what you're doing, you'll walk into the exam room feeling more in control, less anxious, and more focused on getting the grades you deserve. Confidence from good revision will help you stay calm, perform better, and manage the pressure.

### 4. **Stay Ahead of the Competition**

Whether we like it or not, grades are competitive. You're not just aiming for a pass—you're competing for the best grades that will get you into the college or job you want. There are limited places, and every mark counts. By revising properly for your exams, you give yourself the edge over other students who might not be as prepared. Think of it as training for a big sports event—the more you practice, the better you'll perform when it really counts.

### 5. **Perfect Your Exam Technique**

Revising helps you become familiar with the types of questions you'll face and the best ways to answer them. The more you revise, the better you get at managing your time and structuring your answers. This practice will be a huge advantage when the real exams come, because you'll know exactly what to do under pressure.

## How to use revision timetables

### Summary: How to make a revision timetable

1. Identify Topics	2. Organise Your Sessions	3. Design Your Plan	4. Use it	5. Reviewing
Break down subjects into smaller, specific topics.	Interleave different topics within a single session.	Create a timetable with each subject in multiple sessions.	Switch between 2-3 subjects during each evening.	Test yourself on what you've just learned.
Make a list of all the topics you plan to revise.	Spend specific time on each subject (e.g., 30 mins).	Spread sessions out over days and weeks.	Leave breaks between topics for mental refreshment.	Revisit topics that you're forgetting too quickly.
	Implement spaced practice by revisiting topics later.	Mix different topics to challenge your brain.	Review difficult topics first after a few days.	

Avoid answering the questions in your head: research shows that when you read a question and answer it in your head, you aren't actually testing your knowledge effectively. Say the answer out loud or write it down before checking it against the card, so you are truly testing if you can explain the answer properly

## Flashcards

### Summary: How to use flash cards

1.

#### Identify knowledge

What are you creating flash cards on?

Do you have your knowledge organizer?

Use your book to look at previous misconceptions from whole class feedback.

2.

#### Colour coding

Use different coloured flash cards for different topics. This helps with organization NOT recall

3.

#### Designing

1 Question per flashcard.

Making them concise and clear.

Use a one word prompt, so that you can recall as much as you can.

No extended answer questions.

4.

#### Using

Write your answers down, then check. Or say your answers out loud. This really clearly shows the gaps in your knowledge.

Do not just copy & re-read.

Shuffle the cards each time you use them.

Use the Leitner system to use flash cards everyday.

5.

#### Feedback

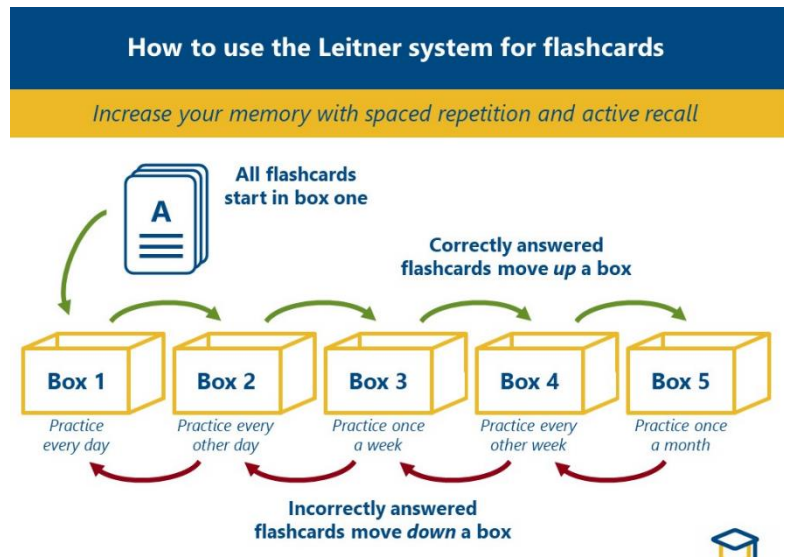

How have you performed when you look back at your answers?

Is there anything you need to revisit in more detail?

Is your knowledge secure? If so, move onto applying knowledge in that area in specific extended exam questions.

Avoid answering the questions in your head: research shows that when you read a question and answer it in your head, you aren't actually testing your knowledge effectively. Say the answer out loud or write it down before checking it against the card, so you are truly testing if you can explain the answer properly

The **Leitner method** for studying with flashcards is a fun way to make sure you remember what you learn! Start by writing questions on one side of the card and the answers on the other. Put all your cards in Box 1, which you'll review every day. If you get a card right, move it to Box 2, where you'll review it every 2 days. If you keep getting it right, keep moving it up through the boxes (Box 3 every 4 days, Box 4 every 9 days, and Box 5 every 14 days). If you get a card wrong, move it back to Box 1, so you'll see it more often until you know it well. This way, you focus on the cards you find tricky and gradually reinforce your knowledge of the ones you already know!

**Brainscape** is a digital flashcard app that uses spaced repetition to help you effectively study and retain information, making it a great tool for preparing for your mock exams in the UK. With the ability to create customized flashcards or access a library of pre-made ones, you can tailor your study materials to your specific subjects and needs. The app's interactive platform, progress tracking, and flexibility allow for efficient and engaging study sessions, ensuring you focus on challenging topics while reinforcing your knowledge in a convenient way.

### What to do

- Each page has a list of topics or concepts which will be assessed in the Year 10 checkpoints. There are also links to revision resources on various websites. Use this alongside activities from tutor time to get ready for your Year 10 checkpoint.
- Subjects which are not running a tests as their form of assessment are not included in the guide.

## Business Studies: 23/06/2026

### Topics to revise:

Knowledge Organisers	Theme 1 – Paper 1
<a href="#">Topic 1.1 Enterprise and Entrepreneurship</a> 	1. Introduction Lesson 2. The Dynamic Nature of Business 3. Risk and Reward  4. The Role of Business Enterprise
<a href="#">Topic 1.2 Spotting a Business Opportunity</a> 	1. Customer Needs 2. Market Research  3. Market Mapping  4. Market Segmentation 5. The Competitive Environment
<a href="#">Topic 1.3 Putting a business idea into practice</a> 	1. Business Aims and Objectives 2. Business Revenues, Costs and Profits (Part1) 3. Business Revenues, Costs and Profits (Part2) 4. Cash and Cash Flow  5. Sources of Business Finance
<a href="#">Topic 1.4 Making the business effective</a> 	1. Options for start-up & small businesses (Part1) 2. Options for start-up & small businesses (Part2) 3. Business Location 4. Marketing Mix (Part 1) 5. Marketing Mix (Part 2) 6. Business Plans
<a href="#">Topic 1.5 Understanding external influences on business</a> 	1. Business Stakeholders 2. Technology and Business  3. Legislation and Business

## Construction: 16/06/2026

### Topics to revise:

#### Chapter 1 The Structure of The Industry

- Types of construction work: new build, maintenance, refurbishment, restoration.
- Key roles: architect, quantity surveyor, craft worker, site agent, operatives.
- Types of buildings: residential, commercial, industrial; low/medium/high-rise.
- Communication: verbal, written, body language; key documents like drawings and timesheets.
- Routes into construction: apprenticeships, NVQs, employment rights.

#### Chapter 2 Health and Safety

- Health and Safety at Work Act; COSHH, RIDDOR, PPE rules.
- Manual handling and correct lifting techniques.
- Fire safety: types of fires and extinguishers, fire triangle.
- Safety signs: prohibition, mandatory, warning, and information.
- Reporting accidents and near misses.

## Design Technology (Engineering): 18/06/2026

### Topics to revise:

Technical Knowledge – Core Technical Principles – Broad coverage of the topics so far.

- Materials – Properties & characteristics; Stock forms & standard components.
- Data – Calculation; Use of data, diagrams, charts; Drawing & interpreting graphs.
- Wider implications – Context & usability; Opportunities & constraints; New & emerging processes, technologies & ethics.

Visual Communication – Coverage associated with selected presentation processes, covered as part of the Visual Communication project.

- Technical Drawing – Isometric; One point perspective; Two point perspective; 3<sup>rd</sup> angle orthographic; Exploded diagram; Rendering.

Technical Skills – Practical processes covered as part of the practical project carried out so far this year.

- Manufacturing – Properties & characteristics; Standard components; Production methods; Jigs; templates & patterns.

### Revision resources:

Resources associated with course content have been shared through Google Classroom. These include: General D&T revision resources; Past Papers; Knowledge Organisers, associated to project topics, delivered throughout the year. In addition to the Google Classroom, pupils have access to the D&T SENECA platform (link shared through Google Classroom & Class Charts).

Other useful resources include:

BBC Bitesize	Seneca	Dtteacher
<a href="#">GCSE Design and Technology - AQA - BBC Bitesize</a>	<a href="https://app.senecalearning.com/">https://app.senecalearning.com/</a>	<a href="#">HOME   Dtteacher</a>
		

## Drama: 18/06/2026

### Topics to revise:

#### Section A– Set text – a series of questions about “Macbeth”

- Look in Showbie – I have put all the lessons we did in there.
- Watch a version of the play if you can – use our National Theatre log-in in Showbie
- Main characters:
- What are they like?
- How would you communicate the character to an audience?
- How do they interact with other characters?
- How you would use your vocal and physical skills to communicate meaning to an audience
- Style of the play
- Design elements – costume (hair and make-up included), set (props included), lighting and sound
- How the play was originally staged

We are not doing a section B question this time round but that will be in the Autumn mock exams!

## English Literature 23/06/2026

(English Literature) – Romeo & Juliet & Power & Conflict Poetry. The assessment will last 1 hour & 45 mins.

### **Romeo & Juliet**

- Plot: Key events & structure
- Characters: Romeo, Juliet, Mercutio, Tybalt, Nurse, Friar Lawrence, Capulet & Lady Capulet
- Themes: Love, conflict, fate, family relationships, youth vs. age, societal expectations, religion
- Language: Imagery, figurative language (metaphor, simile & personification), dramatic irony, verse forms
- Context: Elizabethan views on love, honour, loyalty & patriarchy; Shakespearean tragedy, The Great Chain of Being
- Quotes: 3 – 6 per key theme/main character

### **Power & Conflict Poetry**

- Poems: Know all the poems you have studied so far (form, structure, themes, tone, techniques) – focus particularly on the core poems: Ozymandias, Exposure, Storm on the Island, Remains & London
- Themes: effects of power (nature / humans), consequences of conflict, effects of war, identity, memory
- Comparison: Link poems by theme / language / structure
- Techniques: imagery, figurative language (metaphor, simile & personification), structure, tone
- Context: the poet's background & message (intention for writing poem), Romanticism, societal expectations at the time the poem was written

## English Language: 18/06/2026

### Topics to revise:

(English Language) Paper 1 Section A – Reading: language & structure analysis & Section B – Writing: descriptive or narrative writing. The assessment will last 1 hour & 45 mins.

### Skills to Revise (Section A)

#### Language Analysis:

- Word choices, phrases, imagery, figurative language
- Effects on the reader

#### Structure Analysis:

- Narrative perspective, shifts in focus, foreshadowing, dialogue
- Paragraph links & contrasts, sentence structure (varied sentence lengths), openings/endings

### Skills to Revise (Section B)

- Planning engaging ideas
- Communicating ideas clearly
- Using a range of methods (language techniques)
- Using ambitious vocabulary

#### Inference & Interpretation:

- What's implied vs. stated
- Character, setting, mood

#### Evaluation:

- How effectively the writer achieves their purpose

#### Techniques to Spot

- Simile, metaphor, personification
- Juxtaposition, contrast, repetition (patterns)
- Zooming in/out, flashbacks, cliff-hangers

- Structuring ideas in an interesting way
- Varying punctuation for effect
- Varying sentence lengths for effect
- Accurate spelling & punctuation

## Food Science and Nutrition: 25/06/2026

### Topics to revise:

Topic Area	Specific Content in the Paper
Food Commodities	Cereals, dairy, eggs, flour, fats, vegetables
Nutrition	Vitamin C, minerals, fibre, carbohydrates
Food Science	Coagulation, gluten, shortening, thickening, yeast fermentation
Food Safety	Storage of cooked foods, bacterial growth
Food Preparation	Pastry, sauces, breadmaking
Food Choice	Food poverty, technology influencing choices

FOOD - Food Prep.  
& Nutrition 9-1  
GCSE Exam  
Practice Workbook

## French: 17/06/2026 (reading), 22/06/2026 (writing)

### Topics to revise:

Reading paper: Revise the 4 modules we have covered so far which include Free time and technology, family, friends and celebrations, school life and Healthy living. In addition, there may be some topics we are yet to cover as we are giving you the opportunity to recall vocabulary from KS3 and use your reading strategies to help you with these questions.

The writing paper will focus only on the topics we have covered.

### ASSESSMENT SKILLS:

Reading: The paper includes multiple choice, short answer comprehension questions, time frame questions, identification of whether opinions are positive, negative or both.

For the writing you will have to:

- 1: Write 5 basic sentences to describe what is in a photo
- 2: Create a 50 word paragraph to include 5 given bullet points
- 3: Complete a small multiple choice grammar task.
- 4: Translate short sentences
- 5: Create a 90 word essay based on 3 bullet points, One will refer to the present, one to the past and one to the future.

### GRAMMAR:

You will need knowledge of the present tense, near future and past (perfect and imperfect tenses). Understanding the use of negatives, opinions, comparisons and superlatives and adjectival agreement/position will be helpful to boost the range of your language.

### Revision resources:

- Use previous lessons , vocabulary lists and sentence builders in Showbie to help you revise. (EV7YT9)
- Use online resources such as [language gym](#) , [Quizlet](#) and [Languagesonline](#) to practice vocabulary and grammar
- Create mind maps and flashcards to learn vocabulary and grammar points
- Revise a list of basic verbs in the 3 key tenses to boost accuracy in writing
- Learn useful words such as connectives, sequencing phrases, quantifiers, frequency phrases to help link your written work together.

Revise from your Green course vocabulary book, learning a few words a day and testing regularly will really broaden your vocabulary without overloading your brain!

- If you purchased a revision guide from the school, use it to revise your 3 key tenses (past, present ,future) and any of the topics mentioned above.

**At this stage all students are going to take a Foundation tier paper to consolidate key skills acquired in year 10. This will mean that there will be a cap on grades achievable, with the maximum being a grade 5. Students will then get the opportunity in year 11 November mocks to try higher papers where appropriate.**

## Geography: 19/06/2026, 26/06/2026

### Topics to revise:

#### Paper One

1. **Challenge of Natural Hazards** (Climate Change and Tectonic Hazards – Case studies Amatrice, Italy and Nepal)
2. **River Landscapes in the UK**

#### Paper Two

1. **Urban issues and challenges** - (Urbanisation and Case study of a city in a Lower Income Country or Newly Emerging Economy – Case study - LAGOS in Nigeria).
2. **Changing Economic World**(The Development Gap and closing it and A CASE STUDY how the changing economy of Lower Income Country or NEE which is Nigeria)

### Revision resources:

<b>SENECA</b>	<a href="https://www.senecalearning.com">Seneca - Learn 2x Faster (senecalearning.com)</a>
<b>Internet Geography</b>	<a href="#">The Challenge of Natural Hazards - Internet Geography</a> <a href="#">Physical Landscapes in the UK - Internet Geography</a> <a href="#">The Changing Economic World - Internet Geography</a> <a href="#">Urban Issues and Challenges - Internet Geography</a>
Revision resources will also be placed in your showbie classes in a Revision folder.	

## Hair and Beauty: 16/06/2026

### Topics to revise:

#### Unit 201 – Exploring the Hair and Beauty Sector

- Industries in the sector: hairdressing, beauty therapy, barbering, nail services, etc.
- Hair and beauty careers:
  - Roles and responsibilities
  - Services provided
  - Typical working hours and patterns
- Business and industry links:
  - Related industries (e.g. fashion, media, health)
  - Transferable skills used across sectors

#### Learning Outcome 2: Development of the Hair and Beauty Sector

- Hair and beauty through history:
  - Key trends from ancient times to the last 100 years
- Hair and beauty today:
  - Impact of technology and economic changes
  - Influence of culture, diversity, and celebrities

#### Unit 202 – The Science of Hair and Beauty

- Acids and alkalis:
  - Effects on hair and skin
  - pH testing methods and typical values for products
- Scientific principles of ingredients:
  - Functions and properties of common substances
  - Causes and signs of allergic reactions
- Ethical testing:
  - Why cosmetic testing is needed
  - Laws against animal testing
  - Organisations like PETA and RSPCA
  - Alternative, cruelty-free testing methods

#### Learning Outcome 2: Biology for Hair and Beauty

- Structure and function of:
  - Hair
  - Nails
  - Skin (epidermis, dermis, hypodermis)
- Skin, hair and nail conditions:
  - How they affect treatments and services
  - Contagious conditions: bacterial, fungal, viral, infestations
  - Non-contagious conditions and their impact
  - The body's defence against pathogens

### Revision resources:

Showbie – all presentations that have been used in the lesson are available on Showbie

Key word book – this is an excellent revision tool to use, especially if someone else is quizzing you.

Your unit work booklets

## History: 17/06/2026, 24/06/2026, 26/06/2026

### Topics to revise:

There are two papers in your GCSE History mock exam and you need to revise everything you have studied in Y10 in both the People's Health and the Elizabethans components.

Note: you will NOT be given any questions Pendennis Castle (History Around US) this time.

- **PAPER 1: The People's Health, 1250 to present**
- Full past paper, 50 minutes, Wednesday 17th June at 9:00am
- **PAPER 2: The Elizabethans, 1580-1603,**
- Full past paper, 50 minutes, Wednesday 24th June at 11:45am

### Revision resources:

Showbie code: E3BQWV – “Year 10 Mock Exam (summer term 2026)” folder.

<https://www.bbc.co.uk/bitesize/examspecs/zqkrbk7>

Make sure you click on the right component - The People's Health and The Elizabethans.

Revision Guides for OCR SHP B History 9-1 also available in *Parentpay*:

## Maths: 19/06/2026 (non calc), 25/06/2026 (calc)

You will have 2 exam papers lasting 1 hour each.  
You will have a non-calculator paper and a calculator paper.

The assessment will mainly cover topics that have been studied this year but questions may include skills from Key Stage 3 too.

The table below summarises the modules you have covered on your learning journey so far.

There are two tiers: Higher Tier and Foundation Tier.

- At Higher Tier students can achieve grades 4 to 9
- At Foundation Tier students can achieve grades 1 to 5

Make sure you know which tier you are following. Ask your teacher if you are unsure.

### Summary of modules covered so far during Year 10

Module Number	Module Title
1	Congruence, Similarity and Enlargement
2	Trigonometry and Pythagoras' Theorem
3	Equations and Inequalities
4	Simultaneous Equations
5	Angles and Bearings
6	Working with Circles
7	Vectors
8	Ratios and Fractions
9	Percentages & Interest
10	Probability
11	Delving into Data
12	Non-calculator Methods
13	Types of Number and Sequences

### Equipment

You need to bring the correct equipment to each exam (black pen, ruler, pencil, pencil sharpener and eraser) and remember to bring your calculator for the second paper. A protractor and a pair of compasses are also recommended.

It is important to check that your calculator is in 'degrees' mode for it to work properly. You also need to know how to turn your answers into decimals – see your maths teacher if you are unsure.

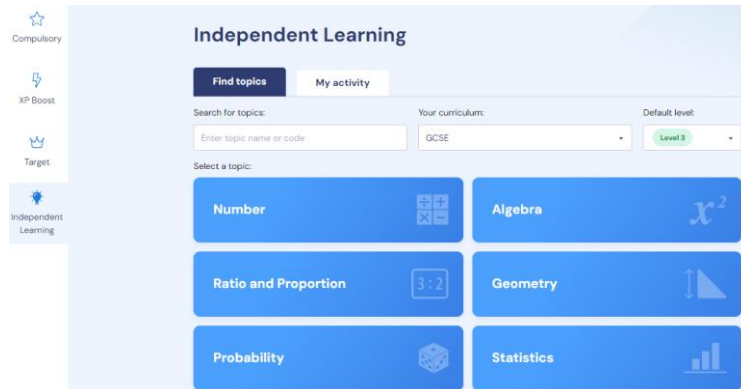

## Revision resources

### Sparx Maths Independent Learning

- Go to [www.sparxmaths.com](http://www.sparxmaths.com) and log-in using the log-in details you created in class with your teacher.
- Click on the 'Independent Learning' tab on the panel on the left of the screen.
- Make sure to select your curriculum as 'GCSE'.

Here is a screenshot of the main independent learning page:

Every topic in the syllabus is included. You should select topics from the key objectives lists below to work on.

The questions are split into 'introduce', 'strengthen' and 'deepen'. You should work your way through each of the sections. A video is attached to every question to help explain the skill required if needed.

You can adjust the difficulty of the questions, as necessary. There are 5 levels to choose from with level 1 being the easiest and level 5 being the hardest.

### Maths Watch Login Details

#### MathsWatch Login Details

To work out your username, you use the following:

[Year you started at HCC][First name].[Surname]@helston

e.g. James Smith-Jones in Year 10 who started at Helston in Sept 2022 would have this username: 22james.smith-jones@helston

Write your login here:

Everyone's password is 'hexagon'

### Maths Watch

Print worksheets or complete interactive questions from MathsWatch

- Go to [www.mathswatch.co.uk/vle](http://www.mathswatch.co.uk/vle) and log in using your username and password
- Click 'Videos'
- Under 'Find a Clip', select 'GCSE' as the qualification
- In 'Search' type in the topic you are looking for
- In the 'Choose Clip' box, select the clip you are looking for – this will bring up the video in the 'Video' box

Now that you have the correct clip, look at the top right hand corner of the video box:

- Worksheet – if you click this, it will bring up a pdf that you can print off to complete
- Interactive questions – if you click this, it will bring up some questions you can complete online and will be marked automatically when you click 'Submit Answer'

### Showbie

Your teachers have uploaded many resources onto your maths Showbie classes. Review these resources again to help revise the work you have covered this year.

This document supports revision for the end-of-year assessment. It covers all 13 modules studied so far, following the White Rose Maths GCSE scheme of work.

Use the tick boxes to track your revision. Additional Higher Tier objectives are listed separately.

## Detailed Revision Objectives

### Module 1: Congruence, Similarity and Enlargement

#### Main Objectives

	Objective	Sparx Code	✓
1	Enlarge shapes using integer and fractional scale factors	U519	<input type="checkbox"/>
2	Identify and compare similar shapes	U112	<input type="checkbox"/>
3	Find missing lengths and angles in similar shapes	U578	<input type="checkbox"/>
4	Apply parallel line rules to find missing angles	U826	<input type="checkbox"/>
5	Understand congruence and similarity conditions	U790, U551	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Enlarge shapes using negative scale factors	U134	<input type="checkbox"/>
H2	Explore area and volume scale factors	U110	<input type="checkbox"/>
H3	Prove triangle congruence	U887	<input type="checkbox"/>

### Module 2: Trigonometry and Pythagoras' Theorem

#### Main Objectives

	Objective	Sparx Code	✓
1	Use Pythagoras' Theorem in right-angled triangles	U828, U385	<input type="checkbox"/>
2	Use sine, cosine and tangent to find missing sides	U605, U283	<input type="checkbox"/>
3	Use trigonometry to find angles	U545	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Use trigonometry in 3-D problems	U170	<input type="checkbox"/>
H2	Use sine rule and cosine rule	U952, U591	<input type="checkbox"/>
H3	Find the area of a triangle using trigonometry	U592	<input type="checkbox"/>

### Module 3: Equations and Inequalities

#### Main Objectives

	Objective	Sparx Code	✓
1	Solve one-step and two-step equations	U755, U325	<input type="checkbox"/>
2	Solve equations with the unknown on both sides	U870	<input type="checkbox"/>
3	Solve linear inequalities	U759	<input type="checkbox"/>
4	Represent inequalities on number lines	U509	<input type="checkbox"/>
5	Form equations from problem situations	U599	<input type="checkbox"/>
6	Draw straight line graphs	U741	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Solve equations graphically	U133	<input type="checkbox"/>
H2	Solve quadratic equations and inequalities	U960, U228, U133	<input type="checkbox"/>

### Module 4: Simultaneous Equations

#### Main Objectives

	Objective	Sparx Code	✓
1	Solve simultaneous equations by substitution	U757	<input type="checkbox"/>
2	Solve simultaneous equations by elimination	U760	<input type="checkbox"/>
3	Solve simultaneous equations using graphs	U836	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Solve linear and quadratic simultaneous equations	U547	<input type="checkbox"/>
----	---	------	--------------------------

#### Module 5: Angles and Bearings

##### Main Objectives

	Objective	Sparx Code	✓
1	Use compass directions and bearings	U525	<input type="checkbox"/>
2	Measure and interpret bearings	U525	<input type="checkbox"/>
3	Draw and interpret scale diagrams	U257	<input type="checkbox"/>
4	Calculate bearings using angle rules	U107	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Solve bearings problems using trigonometry	U164	<input type="checkbox"/>
----	--	------	--------------------------

#### Module 6: Working with Circles

##### Main Objectives

	Objective	Sparx Code	✓
1	Calculate the area and circumference of a circle	U950, U604	<input type="checkbox"/>
2	Label parts of a circle	U767	<input type="checkbox"/>
3	Calculate arc lengths and sector areas	U221, U373	<input type="checkbox"/>
4	Use surface area and volume of prisms, cylinders, cones and spheres	U929, U259, U464, U523, U893	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Apply circle theorems	U808, U489	<input type="checkbox"/>
H2	Solve area and volume similarity problems	U110	<input type="checkbox"/>

#### Module 7: Vectors

##### Main Objectives

	Objective	Sparx Code	✓
1	Represent vectors and use notation	U632	<input type="checkbox"/>
2	Add and subtract vectors	U903	<input type="checkbox"/>
3	Use scalar multiplication	U564	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Use vectors to explore geometry	U781	<input type="checkbox"/>
H2	Form vector proofs such as parallel vectors	U660, U560	<input type="checkbox"/>

#### Module 8: Ratios and Fractions

##### Main Objectives

	Objective	Sparx Code	✓
1	Share quantities in a given ratio	U577	<input type="checkbox"/>
2	Solve best buy problems	M681	<input type="checkbox"/>
3	Solve problems with currency conversion	U610	<input type="checkbox"/>

4	Combine ratios	U921	<input type="checkbox"/>
---	----------------	------	--------------------------

#### Higher Tier Objectives

H1	Solve ratio problems involving area and volume	U595	<input type="checkbox"/>
H2	Link ratios with algebra	U676	<input type="checkbox"/>

#### Module 9: Percentages & Interest

##### Main Objectives

	Objective	Sparx Code	✓
1	Calculate percentages of amounts	U554, U349	<input type="checkbox"/>
2	Increase and decrease by a percentage	U773, U671	<input type="checkbox"/>
3	Calculate simple and compound interest	U533, U332	<input type="checkbox"/>
4	Calculate the original value after a percentage change	U286	<input type="checkbox"/>

##### Higher Tier Objectives

H1	Repeated percentage change and growth problems	U988	<input type="checkbox"/>
H2	Understand and use iterative processes	U434, U168	<input type="checkbox"/>

#### Module 10: Probability

##### Main Objectives

	Objective	Sparx Code	✓
1	Calculate probabilities of events	U510	<input type="checkbox"/>
2	Use probability trees for independent events	U558	<input type="checkbox"/>
3	Use experimental data	U166	<input type="checkbox"/>
4	Find probabilities from tables, Venn diagrams and frequency trees	U280	<input type="checkbox"/>

##### Higher Tier Objectives

H1	Use tree diagrams for dependent events	U729	<input type="checkbox"/>
H2	Use conditional probability	U246, U699, U806	<input type="checkbox"/>

#### Module 11: Delving into Data

##### Main Objectives

	Objective	Sparx Code	✓
1	Calculate and interpret averages including from a table	U260, U456, U456, U291, U569	<input type="checkbox"/>
2	Interpret charts and graphs	U557, U653	<input type="checkbox"/>
3	Construct scatter graphs and use lines of best fit	U199, U128, U277	<input type="checkbox"/>
4	Construct and interpret pie charts	U508, U172	<input type="checkbox"/>

##### Higher Tier Objectives

H1	Use histograms and cumulative frequency graphs	U814, U983, U182, U642	<input type="checkbox"/>
H2	Compare distributions including from box plots	U507	<input type="checkbox"/>

#### Module 12: Non-calculator Methods

##### Main Objectives

	Objective	Sparx Code	✓

1	Use mental and written methods for the 4 operations (including decimals)	U478, U127, U293, U453	<input type="checkbox"/>
2	Round to decimal places and significant figures	U298, U731, U965	<input type="checkbox"/>
3	Estimate calculations	U225	<input type="checkbox"/>

#### Higher Tier Objectives

H1	Understand and use surds	U338, U633, U872, U499	<input type="checkbox"/>
H2	Solve problems involving bounds	U657, U587	<input type="checkbox"/>

#### Module 13: Types of Number and Sequences

##### Main Objectives

	Objective	Sparx Code	✓
1	Find HCF and LCM	U529, U751	<input type="checkbox"/>
2	Express a number as a product of its primes	U739	<input type="checkbox"/>
3	Continue and describe number sequences	U530, U978	<input type="checkbox"/>
4	Find nth term of linear sequences	U498	<input type="checkbox"/>
5	Continue and explore non-linear sequences such as geometric and Fibonacci sequences	U680	<input type="checkbox"/>

##### Higher Tier Objectives

H1	Find nth term of quadratic sequences	U206	<input type="checkbox"/>
----	--------------------------------------	------	--------------------------

## Music – 16/06/2026

### Topics to revise:

#### AREA OF STUDY 1

Coronation Anthems and Oratorios of Handel  
Orchestral music of Haydn, Mozart and Beethoven  
Piano music of Chopin and Schumann  
Requiems of the late Romantic period

#### AREA OF STUDY 2

Music of Broadway 1950s to 1990s  
Rock music of 1960s and 1970s  
Film and computer gaming music 1990s to present  
Pop music 1990s to present

#### QUEEN SET WORKS

Love of My Life  
Seven Seas of Rhye  
Bohemian Rhapsody

### Revision resources:

In the Showbie folder titled “Revision” you will find a folder named MOCK EXAM REVISION. All the revision resources you need are in there.

<https://my.showbie.com/classes/621d3af23fdb4dc837dc9bf73a1849778472ebe4/topics/3194015/assignments>

There are also some fairly good commercial books but make sure you get the AQA specification!

#### AQA GCSE

[Music Revision Guide: Amazon.co.uk: David Ventura: 9781785581540: Books](https://www.amazon.co.uk/dp/9781785581540)

## Science and Triple Science – 22/06/2026 (biology), 24/06/2026 (chemistry), 26/06/2026 (physics)

### Topics to revise:

Biology – all students	<ul style="list-style-type: none"> <li>• B1 - Cell Biology</li> <li>• B2 - Organisation</li> <li>• B3 - Immunity and response</li> </ul>	Monday 23 <sup>rd</sup> - 60 mins
Chemistry – all students	<ul style="list-style-type: none"> <li>• C1 - Atomic structure</li> <li>• C2 - Bonding, structure and properties</li> <li>• C3 - Quantitative Chemistry</li> </ul>	Tuesday 24 <sup>th</sup> - 60 mins
Physics – all students	<ul style="list-style-type: none"> <li>• P1 - Energy</li> <li>• P3 - Particle model of matter</li> <li>• P4 - Atomic structure and Radioactivity</li> </ul>	Thursday 26 <sup>th</sup> - 60 mins

- Knowledge organiser, checklists and revision maps have been allocated to you via class charts.
- A set of exam questions has also been allocated for you to use as part of your revision.
- A Showbie Science revision room for you to join with additional revision resources – **Code: EJD4G3.**

### Good resources for revision

- Past papers – download from the AQA website [AQA | Find past papers and mark schemes](#)
- Revision guide, workbooks, revision card pack can be ordered from the school shop.
- Cognito videos with linked worksheets for each small topic/key concept [Cognito - YouTube](#)
- Seneca learning [Free Homework & Revision for A Level, GCSE, KS3 & KS2 \(senecalearning.com\)](#)
- Focus science software programme to revise the required practicals  
[Focus eLearning by Focus Educational Software Ltd.](#)

Content	Details of resources available from Seneca learning.	
B1 - Cell Biology	Seneca Learning Biology Course: Cell Biology Folder	
B2 - Organisation	Seneca Learning Biology Course: Organisation Folder	
B3 - Infection and Response	Seneca Learning Combined Science: Biology Course: Infection and Response Folder	
C1 - Atomic structure and the periodic table	Seneca Learning Combined Science: Biology Course: Atomic Structure and the Periodic Table Folder	
C2 - Bonding, Structure and the Properties of Matter	Seneca Learning Combined Science: Chemistry Course: Bonding, Structure, and the Properties of Matter Folder	
C3 - Quantitative Chemistry	Seneca Learning Combined Science: Chemistry Course: Quantitative Chemistry Folder	
P1 - Energy	Seneca Learning Combined Science: Physics Course: Energy Folder	
P3 - Particle Model of Matter	Seneca Learning Combined Science: Physics Course: Particle Model of Matter Folder	
P4 - Atomic Structure	Seneca Learning Combined Science: Physics Course: Atomic Structure Folder	

Practical Content	Details of resources available from Seneca learning	
Biology: Required practicals	Required practical review of: Microscopy, Osmosis and Food tests.	
Chemistry: Required practicals	Required practical review of: Making salts.	
Physics: Required practicals	Required practical review of: Specific heat capacity and Density.	

Content	Resources available from Cognito		Details of video link from Cognito	
	B1, B2 and B3	<a href="#">Cognito Resources - Past Papers - GCSE &gt; Qs by Topic &gt; Biology &gt; AQA</a>		<a href="#">GCSE Biology (9-1) - YouTube</a>
C1, C2 and C3	<a href="#">Cognito Resources - Past Papers - GCSE &gt; Qs by Topic &gt; Chemistry &gt; AQA</a>		<a href="#">GCSE Chemistry (9-1) - YouTube</a>

## Spanish: 17/06/2026 (reading), 22/06/2026 (writing)

### Topics to revise:

All themes studied to date which includes: Free time, technology, holidays and festivals, friends, family and my identity and Healthy living. In addition, there may be some topics we are yet to cover as we are giving you the opportunity to recall vocabulary from KS3 and use your reading strategies to help you with these questions.

The writing paper will focus only on the topics we have covered.

### ASSESSMENT SKILLS:

#### Writing

You will have

- 1: Write 5 basic sentences to describe what is in a photo
- 2: Create a 50 word paragraph to include 5 given bullet points
- 3: Complete a small multiple choice grammar task.
- 4: Short sentence translations
- 5: Create a 90 word essay based on 3 bullet points, One will refer to the present, one to the past and one to the future.

#### Grammar:

You will need to be able to work in the past, present and future tense

You will also need knowledge of general structures such as opinion phrases, verb+infinitive, adjectival agreement, comparisons, direct object pronouns, word order, present continuous tense and conjugation of key verbs to be able to complete the grammar question and give variety and accuracy in the extended writing tasks.

### Revision resources:

- Use the classroom notes from your books and Showbie lessons
- Use your Sentence builders for modules 1-4
- Revise course vocabulary from your red AQA vocabulary book
- Make mind maps and flashcards and use strategies such as the Leitner method, Look,write,cover,check and self-quizzing
- If you purchased a revision guide from the school, use it to revise your 3 key tenses (past, present ,future) and any of the topics mentioned above.
- Use online resources such as [language gym](#) , [Quizlet](#) and [Languagesonline](#) to practice vocabulary and grammar
- Use Seneca learning to boost your knowledge of themes and extend your vocabulary further

**At this stage all students are going to take a Foundation tier paper to consolidate key skills acquired in year 10. This will mean that there will be a cap on grades achievable, with the maximum being a grade 5. Students will then get the opportunity in year 11 November mocks to try higher papers where appropriate.**

# Suggested timings and good habits

## Suggested revision session timings

25 minutes on a topic  
5 minutes break  
25 minutes on a different topic  
5 minutes break  
25 minutes on a different topic  
5 minutes break  
25 minutes on a different topic.

This means you can revise four different topics in two hours. If you want to revise for a longer period, stick with the 25 minute sessions and do more of them (with 5 minute breaks in between).

In your breaks, make sure that you move around, drink water, eat something.

If you are planning to revise a topic for the first time, you may want to produce a mind map or make flash cards.

If you are revisiting a topic, then it would be sensible to focus on retrieving the mind map or the flash card from memory (then checking how successful you were in remembering the key information), or complete some past paper questions.

Reward yourself at the end of each productive revision session.

### Avoid all distractions:

- ⇒ Be honest and strict with yourself;
- ⇒ Keep your TV, computer, laptop, phone, WhatsApp, Instagram, Snapchat and any games **away**;
- ⇒ Music can interfere with your thinking – switch it off until you have your break;
- ⇒ Do not waste time or delay starting.
